

## Colloquium

# Global Views of Development

**Alex Schier**

University of Basel

Host: Edouard Hannezo

How does a fertilized egg develop into a complex embryo? To address this question, large-scale high-resolution atlases of development have recently been generated. While these efforts have met with much excitement, they have also raised the concern of "stamp collection". I will present our recent progress in generating global views of embryogenesis and discuss how the exploration of atlases and gene regulatory networks can help provide conceptual advances.

**Monday, May 18, 2026 11:30am - 12:30pm**

Raiffeisen Lecture Hall

This invitation is valid as a ticket for the ISTA Shuttle from and to Heiligenstadt Station. Please find a schedule of the ISTA Shuttle on our webpage: <https://ista.ac.at/en/campus/how-to-get-here/> The ISTA Shuttle bus is marked ISTA Shuttle (#142) and has the Institute Logo printed on the side.
