

Seminar/Talk

Kostant's problem for highest weight modules

Volodymyr Mazorchuk

Uppsala University

Host: Tamas Hausel

In the first half of the talk, I will give a general introduction to the so-called Kostant's problem for Lie algebra modules, as formulated by Joseph in 1980. In the second half, I will discuss a few recent results on this problem for simple highest weight modules and related properties of Kazhdan-Lusztig combinatorics.

Thursday, March 26, 2026 01:15pm - 03:00pm

Office Bldg West / Ground floor / Heinzl Seminar Room (I21.EG.101)

This invitation is valid as a ticket for the ISTA Shuttle from and to Heiligenstadt Station.

Please find a schedule of the ISTA Shuttle on our webpage:

<https://ista.ac.at/en/campus/how-to-get-here/> The ISTA Shuttle bus is marked ISTA Shuttle (#142) and has the Institute Logo printed on the side.
