

Seminar/Talk

Euclidean Ramsey theory

Imre Leader

University of Cambridge

Host: Matthew Kwan

Abstract: Euclidean Ramsey theory is a natural geometric version of Ramsey theory, asking about what we can say when we finitely colour the Euclidean space \mathbb{R}^n . The talk will present background and then go on to some more recent results. No knowledge of the area or of Ramsey theory will be assumed.

Tuesday, April 21, 2026 03:30pm - 04:20pm

Raiffeisen Lecture Hall, Central Building

This invitation is valid as a ticket for the ISTA Shuttle from and to Heiligenstadt Station. Please find a schedule of the ISTA Shuttle on our webpage: <https://ista.ac.at/en/campus/how-to-get-here/> The ISTA Shuttle bus is marked ISTA Shuttle (#142) and has the Institute Logo printed on the side.
