True Artificial Intelligence will Change Everything

Jürgen Schmidhuber

Co-founder & Chief Scientist, NNAISENSE, Scientific Director, Swiss AI Lab IDSIA, Professor of AI, USI & SUPSI, Switzerland

Host: Dan Alistarh

Our deep learning artificial neural networks have won numerous contests in pattern recognition and machine learning. They are now used billions of times per day by the worlds most valuable public companies. I will discuss latest state-of-the-art results in numerous applications, and outline how AIs will transform every aspect of our civilisation, and eventually colonise the universe, and make it intelligent.
