

Conference

Development and Stem Cells Regional Meeting

Host:

The aim of this 5th “Development and Stem Cells” regional meeting on March 3, 2023, is to initiate a scientific dialogue, exchange of know-how about new technologies, and open opportunities for collaboration between groups and institutes around Vienna. Our goal is to encourage the establishment of a coherent scientific community in the area, which is why the meeting is free of registration fees. This conference is also specifically aimed at PhD students and postdocs. We thus encourage everyone to submit abstracts for poster presentations. Several abstracts will be selected for short talks (which will make up the bulk of the conference). There will also be 1 min flash-talks to advertise posters. Apart from talks by PhD students and postdocs, two keynote lectures will be given by Sofia Grade (IMBA) and Carl-Philipp Heisenberg (ISTA). The regional meeting 2023 is a joint effort of members of several regional research institutes: ISTA, University of Vienna, Medical University of Vienna, Max Perutz Labs Vienna, Research Institute of Molecular Pathology (IMP), Institute of Molecular Biotechnology (IMBA), Gregor Mendel Institute of Molecular Plant Biology (GMI). Please find more details on Scientific Program that will be updated regularly! Register now!

Friday, March 3, 2023 08:30am - 06:00pm

ISTA

This invitation is valid as a ticket for the ISTA Shuttle from and to Heiligenstadt Station. Please find a schedule of the ISTA Shuttle on our webpage: <https://ista.ac.at/en/campus/how-to-get-here/> The ISTA Shuttle bus is marked ISTA Shuttle (#142) and has the Institute Logo printed on the side.
