

YSS 2023

Discover the Future

YSS 2023 WEBPAGE

YOUNG SCIENTIST SYMPOSIUM 2023: DISCOVER THE FUTURE

Discover the Future of Science at YSS 2023 - a Scientific symposium organized by Ph.D. Students and Postdocs at the **Institute of Science and Technology Austria** (ISTA). This year's symposium will be dedicated to in-depth explorations of the applications and transformative impacts of **Artificial Intelligence (AI)** and computational research, across the domains of **biology, physics, mathematics, chemistry, neuroscience, and computer science.**

THURSDAY, 9 NOV
2023

ISTA, AM CAMPUS 1,
3400, KLOSTERNEUBURG

9 AM - 8 PM

Join Plenary Lectures, Present Your Research, and Explore AI's Impact on Scientific Horizons!

PROF. DR. GIOVANNI VOLPE
Gothenburg University, Sweden
*Soft Matter, Statistical Physics,
Network Theory and Deep Learning*

PROF. DR. ANGELO CANGELOSI
University of Plymouth, U.K.
Machine Learning and Robotics

PROF. DR. ALEX M. BRONSTEIN
Technion - Israel Institute of Technology, Israel
*Computer Vision, Image and Signal
Processing, Machine Learning.*

PROF. DR. ATHENA AKRAMI
Sainsbury Wellcome Center, U.K.
*Theoretical and experimental
neuroscience*

Join us and register for YSS 2023: <https://yss23.pages.ist.ac.at/>

Deadline to register: October 27th 2023
