Science at the age of AI

Alexander Bronstein

Host:

With the rapid advent of AI technologies, we are living through a historical period comparable in the magnitude of its societal and economical impact to the Industrial Revolution. From ChatGPT to self-driving cars, artificial intelligence is affecting every imaginable human endeavor. This talk will ponder the scientific pursuit in the age of AI and hypothesize how the availability of these novel technologies may affect the scientific method, especially in life sciences.

Friday, January 31, 2025 04:00pm - 05:00pm

Raiffeisen Lecture Hall, Central Building
