

Colloquium

Two stories about randomness

Matthew Kwan

ISTA

Host: Uli Wagner

I'll tell you a bit about two long-running stories in discrete mathematics: one about order and disorder in large networks, and one about the tension between regularity, symmetry and disorder when "organising objects into groups". Two of the highlights from my time at ISTA so far were new advances in these directions. The talk will be accessible to a non-mathematical audience!

Monday, May 12, 2025 11:30am - 12:30pm
Raiffeisen Lecture Hall

This invitation is valid as a ticket for the ISTA Shuttle from and to Heiligenstadt Station. Please find a schedule of the ISTA Shuttle on our webpage: <https://ista.ac.at/en/campus/how-to-get-here/> The ISTA Shuttle bus is marked ISTA Shuttle (#142) and has the Institute Logo printed on the side.
