

Conference

Photoexciting Molecules

Host: Rafal Klajn and Bart Pieber

We invite you to join Photoexciting Molecules, the inaugural chemistry conference at the Institute of Science and Technology Austria (ISTA). The conference theme is photochemistry, with a particular focus on molecular photoswitches and photochemical synthesis. Our goal is to bring together researchers working in these two fields and create a forum for fostering discussions between them. We believe that these interactions can lead to exciting opportunities (perhaps new collaborations?), facilitating further development of photochemistry. In addition to 16 lectures (each followed by a discussion), we will host a lively poster session and a social program. We invite you to join us this September on the ISTA campus, embedded within the serene setting of Vienna Woods.

Wed, September 17, 2025 09:30am - Fri, September 19, 2025 03:30pm

Moonstone Seminar Center

This invitation is valid as a ticket for the ISTA Shuttle from and to Heiligenstadt Station. Please find a schedule of the ISTA Shuttle on our webpage: <https://ista.ac.at/en/campus/how-to-get-here/> The ISTA Shuttle bus is marked ISTA Shuttle (#142) and has the Institute Logo printed on the side.
