Full Programme

12 August 2026
6 – 11 PM, Free Entry

As the Perseid meteor shower reaches its peak on 12 August, the ISTA Campus transforms into a cosmic summer playground for science and music lovers alike.

Experience a live stream of the total solar eclipse from Spain, Astro Talks with our scientists, star observations, street food, drinks and a unique open-air atmosphere.

As day turns to night, enjoy a live outdoor concert by Vienna-based singer-songwriter Oskar Haag near the pond, followed by an FM4 DJ set by Phekt and a night of stargazing under the Perseids.

Chase shooting stars and make a wish.
